## GOV. PREUS TO MAKE WHIRLWIND CAMPAIGN

### REPUBLICAN CHOICE DETERMINED, IS IN THE FIGHT TO WIN

#### PLANS TO REACH EVERY SECTION OF MINNESOTA IN HIS TOUR

#### WILL PLACE THE ISSUES OF SPECIAL ELECTION CAMPAIGN BEFORE VOTERS

St. Paul, June 20.—Governor J. A. O. Preus, nominee of Minnesota republicans for United States senator, will place the issue of the special election campaign before the voters of the state personally, reaching every section of Minnesota before the special election on July 16.

Though the outlook for his election was declared first class in the light of the primary returns, the governor and his friends will take nothing for granted. It will be no light task to get out the republican vote in midsummer, either in city or country. Every effort of the republican state and county committees will be bent to that end.

Immediately on his return from Chicago, where the governor is attending the national wheat conference called by him, Mr. Preus will plunge into the four weeks' campaign.

#### Plans Aggressive Campaign

"I am grateful for the confidence of the people of the state," he said in a statement yesterday, "as demonstrated in my nomination for the republican senatorial race.

"The election is still ahead, and I intend to make the best campaign I know how to make before July 16."

Charles R. Adams, chairman of the republican state committee, issued a call for a meeting of the committee Thursday at 11 a. m., at the Saint Paul hotel. The meeting is called to map out the campaign, which because of the short time ahead will be unusually strenuous. The occasion will be a get-together of republicans. It is expected, regardless of their preferences in the primary contest.

The farmer-labor forces also plan a vigorous campaign. "I am confident the solid strength of the farmer-labor party will get behind Mr. Johanson," said F. A. Pike, chairman of their state committee. "This, with the added independent votes, I believe will result in his election next month."

#### Large Vote at Election Sighted

The primary election vote was less than half the normal voting strength of the state. Without a doubt a much larger vote will be polled at the coming election. The democrats, who were hardly a factor in the primary, expect to poll a large vote in July. While Governor Preus will get most of the votes cast for other republican candidates, the followers of two or three men in that race are very hostile to the nominee, and may go to one of his opponents in the election.

Governor Preus is determined to carry the fight to the opposition and will make a whirlwind tour by automobile.

#### 3 Starters Away on Final Heat

St. Paul, June 20.—Three starters got away on the final heat of Minnesota's senatorial race.

All three political parties appear satisfied—it is just the kind of a race leaders wanted.

Republican and farmer-labor leaders hoped that Governor J. A. O. Preus and Magnus Johnson would carry their banners into the special election July 16 with success as they did in the primary Monday.

James A. Carley, democrat, is also satisfied. In a statement today he claimed that factional fights in the republican and farmer-labor ranks offered him the opportunity to win, and he set out immediately on what he said to be "a vigorous campaign."

Governor Preus returned from Chicago today and speaks at Faribault tonight at a gathering of the League of Minnesota Municipalities. He will climb in his automobile the first of next week and tour the state.

(By United Press)  
Windsboro, Tex., June 20.—Chester Chapman, banker and son of the state banking commissioner, today killed his wife, his father-in-law, W. K. Bradford and then committed suicide.

### RUM FLOOD IS FRUSTRATED

#### REVENUE CUTTER MANHATTAN CHECKS PLOT TO BREAK BLOCKADE

(Copyright 1923 by United Press)  
Aboard Revenue Cutter Manhattan Off the Jersey Coast, June 20.—The revenue cutter Manhattan at 10:10 p. m. yesterday frustrated an attempt to run the whiskey blockade 12 miles off New York harbor.

The Manhattan, with her skipper on the bridge peering through the darkness, had been cruising 24 hours in search of rum smugglers when it came upon the Norwegian steamer. Bru transferring cases of booze to a steamboat.

Through his night glasses the lookout sighted the steamer dead ahead. The Manhattan's engines were shut off and the cutter drifted closer and closer to the smugglers.

The beams of a searchlight on the Bru were turned on the black hulk of the steamship alongside, and by this illumination they were hard at work passing whiskey cases from one craft to the other.

Above the swash of the waves their voices could be heard as the cutter drifted nearer. They failed to observe the cutter's approach until they were within 20 yards. The light from the Bru snapped off.

Immediately the Manhattan dashed full speed ahead, its whistle tooting the signal to halt. The black hulk of the steamboat darted away.

The captain of the Manhattan fired a machine gun across the bow of the steamboat, now plainly visible in the beam of moving light on the dancing waters.

The Norwegian craft made off at a fast clip.

For fifteen minutes the search for the steamship continued. There was burst after burst of machine gun fire through the darkness.

Finally the smuggler sighted the Manhattan and disappeared into the darkness headed for the New Jersey shore.

Judge Oscar Hallam, his nearest opponent, said he would help try to elect the governor.

Preus continued to build up his margin over Hallam as additional precincts came in today. At noon 3387 precincts gave Preus 61,293; Hallam 32,334 and Schall 25,676.

Administration republicans are directing their energy into the fight. President Harding is expected to capitalize his western trip for Governor Preus. He was anxious for the governor to win the nomination, because he represents the administration more closely than any of the other candidates. Governor Preus was a close friend of the late Senator Knute Nelson, and it was the latter's wish that Preus succeed him.

The farmer-labor campaign was organized before half the returns of the primary were in. An executive committee was named late yesterday. Senator-elect Henrik Shipstead, who defeated Frank B. Kellogg by a large majority last fall, will work for Magnus Johnson, and Robert M. LaFollette, Wisconsin senator, is expected to aid also in the farmer-labor fight.

Should Magnus Johnson win the post, administration control of the senate will be jeopardized. It would give Minnesota two farmer-labor senators.

### 'GIRL BANDIT' IS PROVEN A MAN

#### PUZZLING CASE OF DUAL PERSONALITY IN "MRS. FRANCES THOMPSON"

Chicago, June 20.—"Mrs. Frances Thompson," 32, identified as "the smiling blue-eyed girl bandit" who killed Richard C. Tesmer, was unmasked as a man by physicians today.

Dr. David J. Jones, city physician and Dr. Clara Sieppel, court physician, made the examination, disclosing one of the strangest cases of masculine and feminine personalities ever brought before Chicago police.

"Mrs. Thompson" was arrested yesterday and identified by Mrs. Tesmer as the "girl" who killed her husband during a robbery in the rear of the Tesmer Gold Coast home. She was dressed in feminine attire.

The prisoner now appears on police records as Mrs. Fred G. Thompson, wife of Fred G. Thompson, also known as Frank Carrick. She and Thompson told police they have been married for thirteen years.

For hours after her arrest and identification, "Mrs. Thompson" convinced police, physicians and newspaper men that she was a woman with abnormal feminine and masculine nature. Preparations were made to take "her" to the women's detention ward when Dr. Jones and Sieppel discovered the sex and police placed the prisoner in the men's ward at Hyde Park station.

Thompson, still in the feminine attire in which he was arrested, paced the "bull pen" of the station today and protested his innocence of the murder.

Frequently his voice changed from masculine to feminine. Nervously, in girlish tones, he expressed concern for his "husband." At intervals he dabbed at his lips with a rouge stick and patted his bobbed hair. Then his voice changed.

"Oh, hell, I wish I was out of here. I wish I had a shot of hooch and a razor. This beard needs a trimming."

Thompson, when arrested, admitted he shaved twice a week, but claimed this was caused by his dual feminine and masculine nature.

Denying the murder, Thompson continued in feminine tones:

"I ain't never killed nobody. I ain't never shot a zur. My heart goes out to Mrs. Tesmer in the loss of her husband, but I will fight the charges because I ain't guilty. Identification?—She's hysterical; she'd identify anybody."

Clifton, Ariz., June 20.—Choosing five pictures from a number of photographs of Northwestern university students, Benjamin H. Rouw, salesman, San Francisco, said they looked like the men he saw burying Leighton Mount, whose body was found beneath a pier at Evanston, Illinois, following an alleged hazing episode.

Rouw, self-alleged eye-witness of the disposal of Mount's body, is being questioned by Assistant District Attorney Charles Wharton of Chicago.

He could not identify positively some of the photographs.

There were from ten to fifteen men in the party besides the four carrying the body, Rouw said, who carried it to the pier as he approached, and he saw it lowered.

"They said they were only playing a joke, and then gave me \$100 to forget what I saw," said Rouw. "I said I would forget it if there was nothing criminal about it. They made me sign a receipt for the money."

### DESTRUCTIVE LAVA FLOOD SUBSIDING, ETNA IS QUIETING

#### TWO MORE LITTLE TOWNSHIPS COMPLETELY COVERED BY FIERY STREAM

#### TOWN OF GIARRE, 20,000 POPULATION, HAS BEEN ENTIRELY EVACUATED

(By United Press)  
Catania Sicily, June 20.—The destructive flood of molten lava flowing from five craters in Mount Etna decreased today.

Two more little townships were completely severed from the rest of the world by the fiery stream during the night, and the railroad station at Castiglione was completely submerged, but hopes were entertained that more important cities may be spared.

The town of Giarre, which had 20,000 inhabitants, has been completely evacuated, only police and militia remaining.

Unless further explosions and eruptions occur, it is believed other towns will be out of danger. A crust of lava is forming and the stream is advancing more and more slowly.

Destruction of the little village of Plesiment began this morning. Houses went down in flames as white hot masses of molten lava crept toward them.

Inhabitants of Gerro, witnessing the destruction, dug a number of trenches in hopes of diverting the course of the lava stream from the town, but the stream came on, filling the trenches, rolling up over them, and engulfing the town.

Linguaglossa seems for the moment to have been spared. While its inhabitants were parading with a statue of Saint Egidius, credited with having diverted the lava from the city, a party of Castiglione people attacked them, trying to seize the saint for use in saving the latter town. Police intervened and stopped the fight.

"Mrs. Thompson" was arrested yesterday and identified by Mrs. Tesmer as the "girl" who killed her husband during a robbery in the rear of the Tesmer Gold Coast home. She was dressed in feminine attire.

The prisoner now appears on police records as Mrs. Fred G. Thompson, wife of Fred G. Thompson, also known as Frank Carrick. She and Thompson told police they have been married for thirteen years.

For hours after her arrest and identification, "Mrs. Thompson" convinced police, physicians and newspaper men that she was a woman with abnormal feminine and masculine nature. Preparations were made to take "her" to the women's detention ward when Dr. Jones and Sieppel discovered the sex and police placed the prisoner in the men's ward at Hyde Park station.

Thompson, still in the feminine attire in which he was arrested, paced the "bull pen" of the station today and protested his innocence of the murder.

Frequently his voice changed from masculine to feminine. Nervously, in girlish tones, he expressed concern for his "husband." At intervals he dabbed at his lips with a rouge stick and patted his bobbed hair. Then his voice changed.

"Oh, hell, I wish I was out of here. I wish I had a shot of booze and a razor. This beard needs a trimming."

Thompson, when arrested, admitted he shaved twice a week, but claimed this was caused by his dual feminine and masculine nature.

Denying the murder, Thompson continued in feminine tones:

"I ain't never killed nobody. I ain't never shot a gun. My heart goes out to Mrs. Tesmer in the loss of her husband, but I will fight the charges because I ain't guilty. Identification?—She's hysterical; she'll identify anybody."

### CLAIMS HE SAW MOUNT BURIED

#### SAN FRANCISCO SALESMAN IS GIVEN ONE HUNDRED DOLLARS TO FORGET "JOKE"

(By United Press)  
Clifton, Ariz., June 20.—Choosing five pictures from a number of photographs of Northwestern university students, Benjamin H. Rouw, salesman, San Francisco, said they looked like the men he saw burying Leighton Mount, whose body was found beneath a pier at Evanston, Illinois, following an alleged hazing episode.

Rouw, self-alleged eye-witness of the disposal of Mount's body, is being questioned by Assistant District Attorney Charles Wharton of Chicago. He could not identify positively some of the photographs.

There were from ten to fifteen men in the party besides the four carrying the body, Rouw said, who carried it to the pier as he approached, and he saw it lowered.

"They said they were only playing a joke, and then gave me \$100 to forget what I saw," said Rouw. "I said I would forget it if there was nothing criminal about it. They made me sign a receipt for the money."

### ROUW IS SUMMONED TO CHICAGO IN CASE

Chicago, June 20.—B. H. Rouw, who claims he witnessed what is believed to have been the burial of Leighton Mount, will be returned from Clifton, Arizona, State Attorney Robert E. Crowe said today. Crowe wired Charles Wharton, his assistant questioning Rouw at Clifton, to bring Rouw here. Rouw's story is said to correspond with the "eye-witness" story told by John Strom, a fisherman.

### DESTRUCTIVE LAVA FLOOD SUBSIDING, ETNA IS QUIETING

TWO MORE LITTLE TOWNSHIPS COMPLETELY COVERED BY FIERY STREAM

TOWN OF GIARRE, 20,000 POPULATION, HAS BEEN ENTIRELY EVACUATED

(By United Press)  
Catania Sicily, June 20.—The destructive flood of molten lava flowing from five craters in Mount Etna decreased today.

Two more little townships were completely severed from the rest of the world by the fiery stream during the night, and the railroad station at Castiglione was completely submerged, but hopes were entertained that more important cities may be spared.

The town of Giarre, which had 20,000 inhabitants, has been completely evacuated, only police and militia remaining.

Unless further explosions and eruptions occur, it is believed other towns will be out of danger. A crust of lava is forming and the stream is advancing more and more slowly.

Destruction of the little village of Piesimont began this morning. Houses went down in flames as white hot masses of molten lava crept toward them.

Inhabitants of Gerro, witnessing the destruction, dug a number of trenches in hopes of diverting the course of the lava stream from the town, but the stream came on, filling the trenches, rolling up over them, and engulfing the town.

Linguaglossa seems for the moment to have been spared. While its inhabitants were parading with a statue of Saint Egidius, credited with having diverted the lava from the city, a party of Castiglione people attacked them, trying to seize the statue for use in saving the latter town. Police intervened and stopped the fight.

### RUSSIA AIDING AGRICULTURE

The friendly relations which exist between the peasants and the government were commented on by Brookhart. He will complete his Russian trip with a tour through the Ukrainian wheat regions, sailing from Odessa.

### HEAT WAVE CAUSE OF FIVE DEATHS

TAKE POST AT "U"

Minneapolis, June 20—Dr. Clemens Pirquet, one of the world's foremost child specialists, will become professor of children's diseases at the University of Minnesota, serving an institution which is to have a hospital for crippled children on the campus and a convalescent home for these children on a 44 acre tract adjoining the Dowling school site as a result of William Henry Eustis' \$1,000,000 gift.

The appointment of Dr. Pirquet was announced yesterday by President L. D. Coffman at the same time that the university received the gift by Mr. Eustis, former mayor of Minneapolis and himself a cripple. This gift consists of a 44 acres tract upon which the convalescent home is to be built, together with an endowment fund, valued at \$1,000,000, all to be used for the free treatment and care of crippled children under the name "Minnesota Hospital and Home for Crippled Children." From the fund the hospital on the main campus will be built.

And the mice immediately ceased troubling.

This gift consists of a 44 acres tract upon which the convalescent home is to be built, together with an endowment fund, valued at \$1,000,000, all to be used for the free treatment and care of crippled children under the name "Minnesota Hospital and Home for Crippled Children." From the fund the hospital on the main campus will be built.

Arab Legend Concerning Cats. According to an Arab legend, there was no such creature as a cat on this planet until Noah had marched all the animals into the ark. Then a plague of mice occurred, and Noah's family feared they would be eaten out of ark and home. But Noah prayed to Allah, and Allah caused the lion to sneeze a cat from its nostrils. And the mice immediately ceased troubling.

## MORE JUNE NUPTIALS ARE BEING CELEBRATED

### Haberer-Tucker

Miss Gertrude Elaine Tucker and Benjamin Haberer were united in marriage Tuesday evening at the home of the bride's mother, Mrs. M. M. Tucker, Fort Ripley, Minn.

The ceremony was solemnized by Rev. Fred Errington of the First Congregational church, Brainerd, beneath an arch of ferns and peonies. Miss Hilda Beaudreau of Little Falls acted as maid of honor and Rumford Tucker, brother of the bride, attended the groom. Little Elaine Tucker, the bride's niece, acted as flower girl, and Master Wodrow Tucker, her brother, carried the ring on a white satin cushion.

The bride's gown was of white canton crepe, quaintly fashioned in basque effect with drapes of lace and silver flowers. She wore a cap of seed pearls and carried a shower bouquet of sweetheart roses and lilies of the valley.

The maid of honor was gowned in coral pussy-willow taffeta with drapes of silver lace. She wore a head-band of beaded tulle and carried an arm bouquet of cream Jap roses.

Elaine Tucker as flower girl, was dressed in white organdy and val lace. Her brother, as ring bearer, wore a white linen suit.

The bride is well known, both in Brainerd and at Little Falls. She graduated from the Little Falls high school and from the business college in that city. For the past three years she has been employed in Park Rapids.

Mr. Haberer is a graduate of the Park Rapids high school and at present is a member of the co-partnership of John Haberer and Sons.

The newlyweds left immediately after the ceremony for Duluth and points in the northern part of the state.

Out-of-town guests included Mrs. A. Helming, Mrs. Warren Doty, Mrs. S. E. Steele, Mr. and Mrs. Frank Pedley, Mr. and Mrs. Irving Pedley, Mr. and Mrs. Wesley Tucker, Miss

### A TALK WITH A BRAINERD MAN

J. L. Rush, carpenter of 726 4th Ave., tells of his experience.

There is nothing like a talk with one of our own citizens for giving hope and encouragement to the anxious sufferer from the dread kidney disease. We, therefore, give here an interview with a Brainerd man:

"My kidneys were giving me some trouble and the pain and misery I was in was intense", says Mr. Rush. "When I laid down I was bothered quite a bit and could get little rest. My kidneys bothered me at night and mornings I was stiff and sore across the small of my back. I had a steady, dull ache across my kidneys day and night. My kidneys acted frequently and the secretions were highly colored. I started using Dean's Kidney Pills and they relieved me so I could get back to work again, feeling as well as ever."

### Bebe Daniels and Conrad Nagel Featured in Cast of Great Strength

Another of those splendid casts that are characteristic of Paramount pictures, has been assembled for "Singed Wings," Penrhyn Stanlaws' new Paramount production in which Bebe Daniels and Conrad Nagel are featured, and which shows at the Lyceum theatre tonight and Thursday. Miss Daniels has the role of

Bonita della Guerda, a beautiful Spanish cafe dancer, while Mr. Nagel plays the leading masculine part, that of Peter Gordon. Mr. Nagel is regarded as one of the screen's best young actors and his role in "Singed Wings" gives him ample opportunity to display his talent to the best advantage.  
The heavy role is played by Robert Brower. An old man, hardly able to walk with the aid of his cane and teased to exasperation by Emilio, simple minded clown, Mr. Brower has created a character of great strength.

### Camera Works Marvels in "Monte Cristo" Film

Those who have witnessed the special William Fox production of "Monte Cristo", based on Dumas' undying novel, have declared it without hesitation to be a splendid photodrama containing a cast of surprising excellence, charming photography, sane subtitles and costumes which serve to stimulate the fancy, are some of the contributing factors.

It seems that all of the Dumasque characters have but stepped from the pages of this well remembered romance so that the very atmosphere of the book has been caught magically by the camera. Added to that one can discern the same genius displayed by Director Emmett J. Flynn for symbolism and exposition discovered in hundreds of details in the William Fox masterpiece, "Monte Cristo," when it comes to the Lyceum theatre next Sunday.

### Kenneth Harlan Started Career as Dancer on the Stage

Kenneth Harlan, who plays the leading masculine role in the P. P. Schulberg production, "Thorns and Orange Blossoms," the screen version of Bertha M. Clay's world famous novel and stage play, opening tonight at the New Park theatre, is an outstanding favorite among the prominent young picture actors.

The public is perhaps best acquainted with Harlan's work opposite the Talmadge sisters but his dramatic experience dates back to several years on the legitimate stage before his advent to the films. The young man's first engagement was as a dancing partner to Gertrude Hoffman and soon thereafter he joined road companies in "The Fortunio Hunter" and "The Country Boy."

## PENNSYLVANIA RAILROAD IS REBUKED

LAST fall the Dispatch was led to criticize the attitude of the Pennsylvania railroad to its employees. In some way the criticism appearing in this column was called to the attention of the Pennsylvania railroad, whose president made reply to the position taken. In the letter in reply nothing was said that called for the retraction of anything expressed in the criticism of the Pennsylvania's policy, and the Dispatch so affirmed, re-emphasizing the belief that this railroad had not been living up to the demands made upon it by the United States labor board.

Some time later the injunction that had been granted the Pennsylvania by a lower court, restraining the labor board from publishing its rebuke of the railroad, was taken up to the United States supreme court which upheld the jurisdiction of the labor board. This was a vindication of the position taken by the Dispatch last fall.

The rebuke of this railroad expressed by the United States labor board states that the shop employees of this road were deprived of "essential rights" to which congress had declared them entitled. The ground of the criticism lies in the fact that the railroad had refused to count ballots cast for the shopcrafts union representatives because it favored a company association.

The labor board says, in defining the rights of the employees of the Pennsylvania, "If employee representation means anything at all, it signifies the right of a class of employees, through majority action, to select their own representatives to negotiate with the carrier agreements covering wages and working conditions."

But the labor board does not give this as its own opinion, for the criticism states further, "This is what congress said it meant, but the shopcrafts so far have been deprived of this right on the Pennsylvania system."

Few will feel that the labor board is radical in its tendency and the fact that labor has consistently called for the overthrow of the board is against any conclusion of this kind.

The attitude of the Pennsylvania was largely responsible for the shopmen's strike of 1922. It was not initiated because the men on all roads were embittered by their treatment, but because they feared the extension of the tactics of the Pennsylvania. It came about because of a condition of fear, and for that fear in the ranks of labor the Pennsylvania was largely to blame. The Dispatch said this last fall, re-affirmed it when the president of the Pennsylvania replied to the criticism of this column, in the news columns of this paper, and the supreme court and the labor board have sustained the criticism expressed in this column months ago.

The Dispatch stands for conciliation and peace between employer and employee, acknowledges the wrongs of both sides as these appear, and deplores attitudes taken by either party, that keep up the strife between these two parties in a country that, more than others, stands for mutual agreements openly arrived at and legally determined.

## "MAKE THEM WELCOME"

WHEN tourists enter Brainerd they may need to question citizens from whom they may reasonably expect courteous replies. It is affirmed that they are not always treated in a way that is likely to impress them favorably. When the person questioned walks on, without giving due attention to the questioner, the one asking the question or questions is led to conclude that the one addressed is not inclined to be courteous to strangers. In cases of this kind, the person addressed may be on his way to fulfill a business engagement, but that ought not to prevent him from giving a satisfactory answer to the question asked.

Many of the vacationists who enter Brainerd are making their first visit to this part of Minnesota. They are unacquainted with Brainerd; they are without knowledge of the roads, and they do not know where the stores selling different goods are located. When these people ask questions, they are not asking simply for the sake of taking up the time of the person questioned but because they are compelled to ask such questions or undergo the inconvenience of walking around or driving around to find out what they might be told in ten seconds.

Brainerd would do well to adopt the slogan "Make Them Welcome" early in this season so that before the season is far advanced our people will be trained in hospitality and courtesy. The people who come in from outside are not to be classed as tourists and dismissed as tourists who are here to take their enjoyment in our lake region. They are strangers, and strangers are entitled to courteous treatment at all times.

The business interests of Brainerd know what the tourist trade meant to them last summer. But those who are not directly engaged in business may feel that the coming of the tourists is a matter of indifference to them. This conclusion is not substantiated by facts, for, had it not been for the tourist trade of last summer, Brainerd would have been in a deplorable condition at this time. The tourist trade stimulated activity in Brainerd and the tourist who brings the trade should be greeted with enthusiasm and treated with courtesy. The people they meet should make them welcome. Their coming means more than many have realized.

## UNDIMMED HEADLIGHTS

COMPLAINTS are commonly heard relative to the thoughtlessness of those who refuse to dim their headlights. Some drivers, who have been blinded by the headlights of approaching cars, have been led to decide that they will not put on the dimmers when the other driver does not. When those at the wheel who refuse to dim are multiplied, because they have decided to do what the other person does, the dimming of headlights becomes the exception rather than the rule.

There is danger in this to those who dim their lights, and the person who refuses to do this when approaching another car may be arousing a spirit of revenge in the careful driver that will bring about an accident later. The drivers of cars will decide the question whether driving at night is to be a pleasure or a dangerous venture. The problem of the control of the automobile, which is one of the commanding problems in contemporary life, will be solved by those who own the cars. They will decide

whether automobile driving is to be a pleasure or a nervous strain that takes the enjoyment out of driving.

Visitors from other states, where the dimming laws are heeded, are critical of the carelessness of drivers in Minnesota. A visitor from Chicago says, "night driving in Minnesota is not a pastime, it is a dangerous adventure." What the effect of this will be upon people from other states may be guessed. Many of them remain away from Minnesota where lives are endangered through the discourtesy of those who refuse to heed the signal calling for the dimming of headlights.

This is one of the little things in which the tendency of people to put license in the place of liberty finds expression. However much this neglect may inconvenience or endanger the other person is not considered by the person who claims the right to do what he will with the headlights of his own car. It is his property, he has paid his license and he claims the privilege of using it as he will. Thereby he is taking the pleasure out of his own driving by making night driving hazardous. Drivers must see that in organized life the other fellow has rights and that a mutual recognition of rights and privileges will make for the safety of the roads.

It looks as though the voters of this state didn't care much about who was nominated in the primary election. They evidently felt that the choice was so large and good that it didn't matter much who was chosen in the primaries. The election will tell the tale.

NORTHERN Minnesota is favorably located. We have no volcanoes to erupt.

DODGE BROTHERS  
TOURING CAR

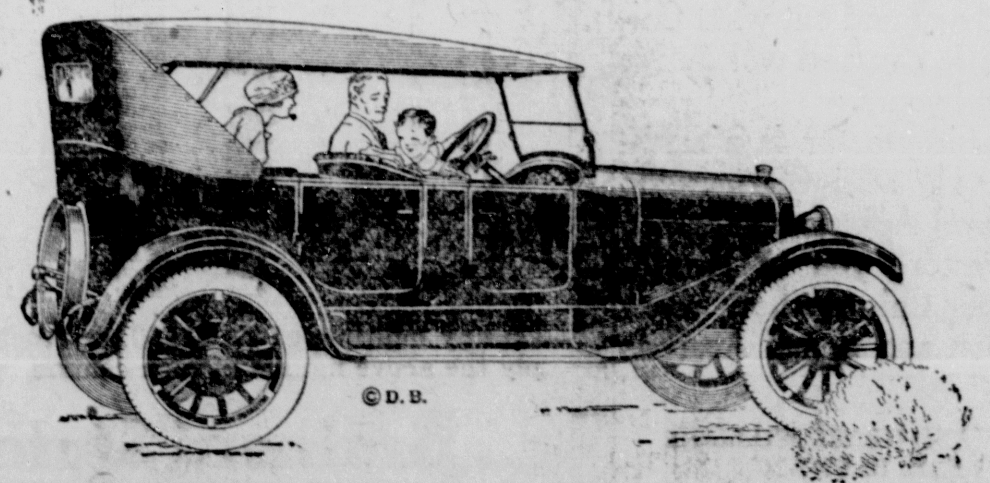

If there is one word which will sum up the average owner's impression of Dodge Brothers Touring Car, that word is *dependable*.

If there is a word to express the quality which Dodge Brothers have striven, above all else, to build into the Touring Car, it is—again—*dependable*.

Indeed, it is not too much to say that the word *dependable* has come to be definitely associated, the nation over, with Dodge Brothers Touring Car—and the other vehicles bearing their name.

Nor have Dodge Brothers built this enviable reputation through advertising. They have built motor cars, so *dependable in fact* that the word has presented itself automatically to the public mind.

## DODGE BROTHERS TOURING CAR

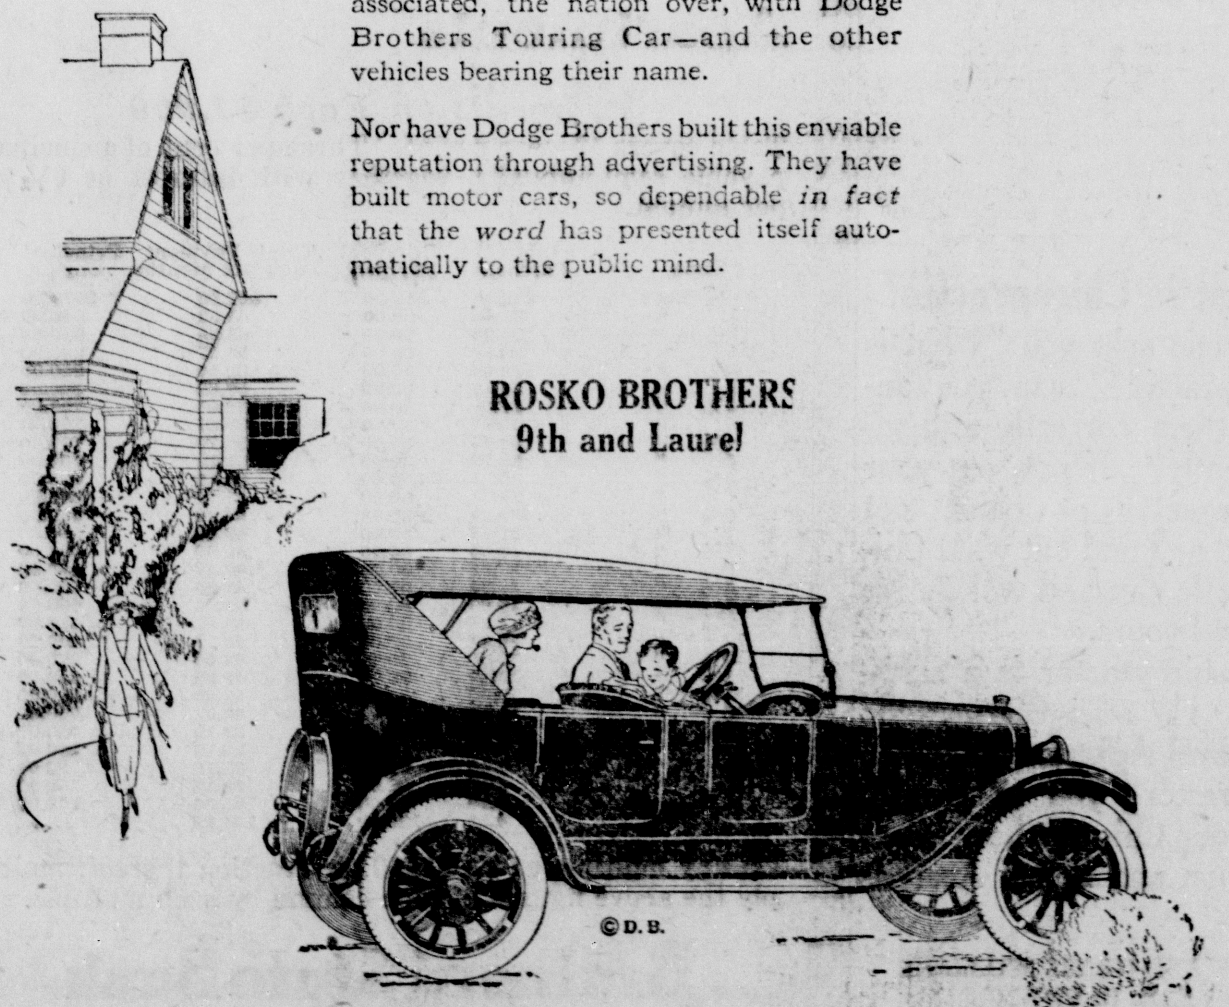

If there is one word which will sum up the average owner's impression of Dodge Brothers Touring Car, that word is dependable.

If there is a word to express the quality which Dodge Brothers have striven, above all else, to build into the Touring Car, it is—again—dependable.

Indeed, it is not too much to say that the word dependable has come to be definitely associated, the nation over, with Dodge Brothers Touring Car—and the other vehicles bearing their name.

Nor have Dodge Brothers built this enviable reputation through advertising. They have built motor cars, so dependable in fact that the word has presented itself automatically to the public mind.

## HUGGINS TROUBLED WITH TOO MANY STARS

By PAUL R. MALLON  
United Press Sports Editor

New York, June 20.—It is very seldom recorded that a baseball club is hurt by having too many star pitchers. But that's what they are saying about Miller Huggins' New York Yankees.

Several of the stars on his staff are complaining that they can't keep in shape because they don't get enough work.

Huggins has six aces, and if he started them in the regular order they would get to pitch only one game a week. The six—Sam Jones, Herb Pennock, Bob Shawkey, Joe Bush, Waite Hoyt and Carl Mays—are all in the star class.

Mays contends that his poor showing this year is due to having to pitch too much in the bullpen. He is of the type that requires actual work on the mound to get into condition. He says several others of the staff need the same thing.

The Yankees, for the last three years, have been troubled with too many stars—if that can be called a serious trouble to a team making the showing the Yanks have. Their bench team would compare pretty favorably with a good many other clubs in the league.

Incidentally, there are a good many managers who would like to be troubled with the same ailment. Kid Gleason, manager of the White Sox, is worrying around with an inadequate pitching staff for a team that could win ball games if they only had some decent moundsmen. "Red" Faber, who, in pre-season discussions, was considered Gleason's ace in the hole, has been inconsistent.

They keep coming and going, but Johnny Dundee manages to plug right along winning and losing his junior lightweight trick title, fighting a battle every few days and keeping himself generally in the more or less bright limelight.

The record books say he is 30 years old and, of course, they may be truthful. But Dundee has been battling thirteen years or more, and though he was defeated by Jack Bernstein for his trick title last month in New York there is no indication that he has started down the long, long trail.

The Italian will get a chance at Eugene Criqui's newly acquired featherweight title under arrangements which have been made for a bout at the Polo Grounds July 30. As usual, he will fight himself into condition for the match.

In his turbulent ring career, Dundee has been knocked out but once, and that was scored by Willie Jackson, who long since has succumbed to infirmities of age or boxing—or both. Jackson scored the knockout in one round in 1917, but failed to repeat the performance in a dozen or more meetings with Dundee since that time.

## CARL SCHJOLL SETS NEW U. OF M. JAVELIN MARK

Minneapolis, June 20.—A new University of Minnesota record in the javelin was officially put on the books, Carl Schjoll's heave of 184 feet 8 1/2 inches, made in the national intercollegiate track meet at Chicago last week, was recognized as a new mark. The heave took fourth place at the meet.

Schjoll has broken the Minnesota record three times in his two years of competition on the Gopher squad. Last year he bettered Patrick's mark of 168 feet by 10 feet, throwing the spear 179 feet 5 inches. Against Northwestern this spring, he heaved the javelin 180 feet 7 1/2 inches and then stepped out and went that mark four feet better in the national intercollegiate last week.

Schjoll is also holder of the Minnesota interscholastic javelin record, established while a student at the Northfield high school four years ago.

## CHICAGO AND ILLINOIS FAVORED TO WIN BIG TEN GOLF TOURNAMENT

## GEORGES, BECKETT MAY YET FIGHT ON JULY 4

London, June 20.—The fight between Joe Beckett and Georges Carpentier may yet be held on July 4 as scheduled in the opinion of some sportsmen. Beckett's injured hand was examined Monday by a London physician, who was unable to discover that a bone had been broken. The Britisher's complaint is said to be only a muscle contraction common to all boxers, and it is asserted that if the X ray examination which Beckett subsequently underwent confirms this diagnosis, the English heavyweight could put his hand into condition in two days.

Beckett has told Sporting Life that he would not fight on July 4 as he would be unable to do himself justice.

## DRINK WATER WHEN KIDNEYS HURT YOU

Take Glass of Salts if Your Back Aches or Bladder Troubles You

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. "An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.—Adv.

## HUGGINS TROUBLED WITH TOO MANY STARS

By PAUL R. MALLON  
United Press Sports Editor

New York, June 20.—It is very seldom recorded that a baseball club is hurt by having too many star pitchers. But that's what they are saying about Miller Huggins' New York Yankees.

Several of the stars on his staff are complaining that they can't keep in shape because they don't get enough work.

Huggins has six aces, and if he started them in the regular order they would get to pitch only one game a week. The six—Sam Jones, Herb Pennock, Bob Shawkey, Joe Bush, Waite Hoyt and Carl Mays—are all in the star class.

Mays contends that his poor showing this year is due to having to pitch too much in the bullpen. He is of the type that requires actual work on the mound to get into condition. He says several others of the staff need the same thing.

The Yankees, for the last three years, have been troubled with too many stars—if that can be called a serious trouble to a team making the showing the Yanks have. Their bench team would compare pretty favorably with a good many other clubs in the league.

Incidentally, there are a good many managers who would like to be troubled with the same ailment. Kid Gleason, manager of the White Sox, is worrying around with an inadequate pitching staff for a team that could win ball games if they only had some decent moundmen. "Red" Faber, who, in pre-season discussions, was considered Gleason's ace in the hole, has been inconsistent.

They keep coming and going, but Johnny Dundee manages to plug right along winning and losing his junior lightweight trick title, fighting a battle every few days and keeping himself generally in the more or less bright limelight.

The record books say he is 30 years old and, of course, they may be truthful. But Dundee has been battling thirteen years or more, and though he was defeated by Jack Bernstein for his trick title last month in New York there is no indication that he has started down the long, long trail.

The Italian will get a chance at Eugene Criqui's newly acquired featherweight title under arrangements which have been made for a bout at the Polo Grounds July 30. As usual, he will fight himself into condition for the match.

In his turbulent ring career, Dundee has been knocked out but once, and that was scored by Willie Jackson, who long since has succumbed to infirmities of age or boxing—or both. Jackson scored the knockout in one round in 1917, but failed to repeat the performance in a dozen or more meetings with Dundee since that time.

## CARL SCHJOLL SETS NEW U. OF M. JAVELIN MARK

Minneapolis, June 20.—A new University of Minnesota record in the javelin was officially put on the books. Carl Schjoll's heave of 184 feet 8 1/2 inches, made in the national intercollegiate track meet at Chicago last week, was recognized as a new mark. The heave took fourth place at the meet.

Schjoll has broken the Minnesota record three times in his two years of competition on the Gopher squad. Last year he bettered Patrick's mark of 168 feet by 10 feet, throwing the spear 179 feet 5 inches. Against Northwestern this spring, he heaved the javelin 180 feet 7 1/2 inches and then stepped out and went that mark four feet better in the national intercollegiate last week.

Schjoll is also holder of the Minnesota interscholastic javelin record, established while a student at the Northfield high school four years ago.

## DRINK WATER WHEN KIDNEYS HURT YOU

Take Glass of Salts if Your Back Aches or Bladder Troubles You

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. "An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.—Adv't.
